

Hillsborough County Design Certification for Landscape Irrigation Systems on Commercial Properties

The following items are requirements of the Hillsborough County Land Development Code (LDC) landscape irrigation standards, Section 6.06.02 to achieve water efficient irrigation. Submittal of this certification indicates the required landscape irrigation plan addresses the following items as attested by your signature.

- Irrigation zones delineated as micro-irrigation or with irrigation techniques other than micro-irrigation.
- Turf areas are on separate irrigation zones from other landscape plant zones.
- Irrigation sprays and rotors are not combined on the same control valve circuit.
- Spray and rotors have matching application rates within each irrigation zone.
- Irrigation system avoids over-spray and runoff onto walkways, roadways, structures or other non-landscaped areas.
- Four feet wide or less landscape areas contain micro-irrigation only.
- Sprinkler spacing does not exceed 55% of the sprinkler’s diameter of coverage.
- Irrigation control equipment contains an automatic irrigation controller with program flexibility. Unless mechanical, the automatic irrigation controller contains a battery back up to retain irrigation programs.
- An operable rain sensor device exposed to unobstructed rainfall.

Certification Statement

As designer for the submitted Landscape Irrigation Plan, I certify the above listed items have been identified on the Landscape Irrigation Plan in fulfillment of Section 6.06.02 of the Hillsborough County Land Development Code.
