

Statement of Compliance and Request for Acceptance Testing of a Fire Protection System

"Before requesting final approval of the installation, where required by the AHJ, the installing contractor shall furnish a written statement to the AHJ that the subject fire protection system has been installed in accordance with approved plans and has been tested in accordance with the manufacturer's specifications and the appropriate installation standard. Any deviation from the design standards shall be noted and copies of the approvals for such deviations shall be attached to the written statement."

The above reference Statement of Compliance shall be furnished to Hillsborough County Fire rescue upon request for a final inspection of any fire protection system installation. This Statement of Compliance shall be completed by the installing company with the project name and address clearly indicated along with the type of fire protection system installed. The installer shall print their name and sign their name to this statement of Compliance.

Additional certifications or information may be required at the final inspection, such as aboveground and belowground test certifications for sprinkler and standpipe systems and record of completion forms for fire alarms systems.

Instructions for Completing the Form:

Please fill out the form completely and legibly. Indicate the permit number and the address just as they are shown on the permit that was issued to you for this work. Check the box indicated if the system installed was for the entire building. Otherwise, use the space provided to describe the specific area of the building where the work was performed. If there are multiple locations, and the space on the form is inadequate, then attach any additional sheets that are needed. "License Holder" refers to the individual that is required to sign the permit application; that same individual must sign the "Statement of Compliance".

Permit number: _____

Address shown on permit: _____

Check here if the work performed was for the entire building

If not the entire building, indicate the specific locations for which this request is being made: _____

Indicate the type of system installed: Fire alarm Standpipe Sprinkler
 Underground fire main Clean Agent Other
