Subrecipient Name:
Subward Identifier:
Federal Grant:

Project Period: Oracle Grant Fund Number:

A subaward is for the purpose of carrying out a portion of a federal or state award and creates a federal or state financial assistance relationship with a subrecipient. This risk assessment is a required tool that assembles and synthesizes grant related information to determine the level of potential liability that exists with subrecipients as indirect recipients of federal or state financial assistance. Under 2 Code of Federal Regulations (CFR), Subpart D §200.331(b) found in the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (commonly referred to as the Uniform Guidance or UG), pass-through entities must evaluate the risk of each subrecipient for noncompliance with federal statutes, regulations, and terms and conditions of the subaward. This risk assessment will be used to determine the appropriate level of monitoring as described in the Uniform Guidance.
